ANKI Lectures Management - Instructions for Excel

1| Prepare Flashcards Template

With **AnkiHelperApp.exe** open the provided **anki_template.csv** file in Excel.

Keep notes ennumerated as V01...V10 in separate sheets for future changes/checks, for FILTER: 01 … 09, 10 (new sheet for each lecture)

Keyboard short for sheets: **Ctrl+PgUp/PgDn**

Make sure to export as CSV (UTF-8)

2| Export Lectures to JPG

Within **AnkiHelperApp.exe** use **pdf_to_jpg.exe** to convert lecture PDFs to JPG images. PDFs need to be in the same folder

Naming format for slides:

   subject_name_V/P_##_S_##   Example: ***OCH1_V_01_S02***

3| Add Personal Notes

Within **AnkiHelperApp.exe** use **add_personal_notes.exe** to: insert HTML image tags into the template where 'Source' information is missing.

4| Move JPG Files

Within **AnkiHelperApp.exe** use **move_jpg_to_anki_folder.exe** to move images to the ANKI pictures directory:

   C:\Users\timon\AppData\Roaming\Anki2\1. Timon - Pharmazeutische Fakultät\collection.media

Controller macros

Beginnings (LIECIVA, MU, NU...) w/ Joy2Stick as follows:

POV: ↑	LIECIVA
POV: →	MU
POV: ↓	NU
POV: ←	SKUPINY LIECIV
[11] LT	Ctrl, C
[12] RT	Ctrl, V

6| Example + Special cases

Front	Back	Personal Notes	Source	Tags
What is the powerhouse of the cell?	Mitochondria	<img src="CHEM	<img src="CHEMISTRY_V_0	Subject::V01
Who is the president of USA?	Biden	<img src="CHEM	<img src="CHEMISTRY_V_0	Subject::V01
This is a list (Alt+Enter); Wrap text here used	COX: -COX1	<img src="CHEM	<img src="CHEMISTRY_V_0	Subject::V01
